

*Wetted paper
gummed tapes*

Gummed Tapes with PAD in-laid threads

Version:

brown, white

Material:

solid sulphite paper of 60, 75 g/m²

Adhesive Material:

fitted with 23 g/m² layer of starch adhesive

Supplied Widths:

60 - 80 mm

Length on Coil:

200 m

Recommended Use:

with 2, 3 or 4 threads placed in the sticky film, these tapes demonstrate higher rigidity than the Standard Tapes so they are suitable where the glued joints are subjected to greater load

Printing:

up to 3-coloured flexography

sample tape:
